

Products For Accelerators

Nihon Koshuha has Produced a wide range of products for Accelerators in the field from Low Level RF Systems to Ultra High Power Components. They are delivered to major institutes in Japan.

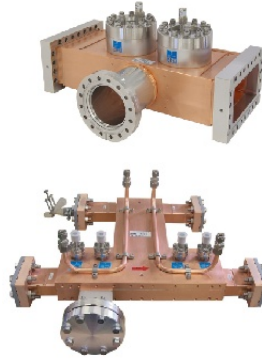

RIKEN X-FEL

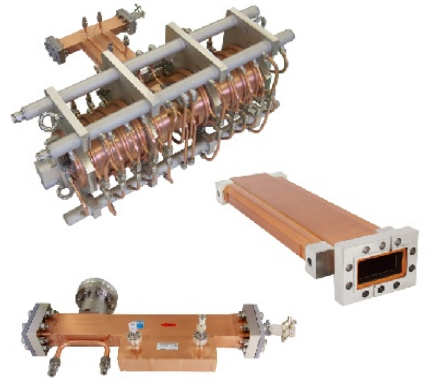

Oil-filled Structure
Pulse Modulator for Klystron

1428MHz High Stability
Solid State Power Amplifier

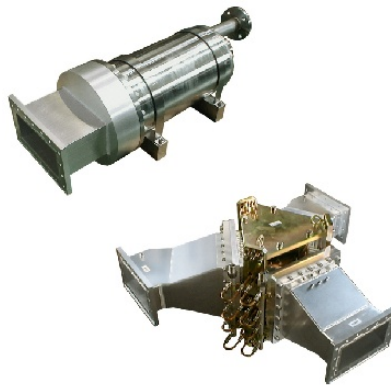

L, S, C-band High Power Ultra High Vacuum
Waveguide Components

J-PARC LINAC

324MHz 3MWpeak WR-2300 Waveguide Circuit
Combined with Circulator, Dummy Load,
3dB Hybrid Divider, RF monitor, Phase Shifter, etc...

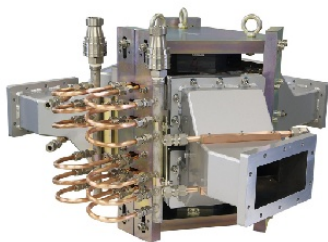

972MHz 3MWpeak WR975
Waveguide Components

324MHz Phase Detector,
4CH Log Amplifier for BPM

KEK ILC, STF, ERL

1300MHz WR-650 Waveguide Components
